

EcgSoft-Stress

Innovative ECG Software by EcgSoft

Exercise Stress Testing Software...

Product Specifications

Software

- 12 leads ECG input
- Averages
- Running Trends
- METS
- Total Exercise Time
- Step Elapsed Time
- Treadmill Control
- HR and Target %
- ST Level and Slope
- SunTech NIBP Device Control
- NIBP Value
- Ectopic Counter
- Full Disclosure ECG recording
- Event Capture
- Screen Freeze in a separate window
- Basic Arrhythmia Detection
- Incremental Median Updating

- Signal Quality Indicator
- Multi-Lead Beat Detection and Analysis with majority voting

Protocols

- Standard protocols: Bruce, Modified Bruce, Naughton, Balke, Ellestad, McHenry, Acip
- Supports physician customized protocols created by protocol editor

Reports Type

- Summary
- Trends
- Average QRS
- ECG snapshot at each step
- Optional Synthesized rhythm
- Reprints from archive
